

The cooking position is uncomfortable after long time cooking, specially if the worktop is not at the right height for you.

The product is designed to relieve this unpleasant feeling created by the inadequate heights of conventional cooking surfaces.

The multiple position adjustments of Liftcook, combined with the removable and easy to clean chopping board, make it the perfect upgrade for your kitchen

It was designed by the team "The Chefs", formed by the great designers Aitor, Abhishek, Fan and Liao from Todai. Ever heard these names before?

Motivation

- Kitchen worktops have a fixed height
- People's height can vary from 1.6 to 1.9 m
- A more ergonomic cooking position is needed to prevent back injuries

Features

- Height adjustable cutting surface, ergonomic
- Simple, stable and compact structure
- Easy-cleaning
- Attractive design
- Functional: removable chopping board
